Dear Colleagues:

The NHMS Annual Scientific Conference will take place at the lovely Mt. Washington Hotel in Bretton Woods, NH, on November 15-17, 2019. Please consider joining us for this opportunity to meet with colleagues and friends to enjoy the camaraderie that is so often missing in our everyday practices. Our theme this year is “Trending Topics in Medicine 2019.”

Scientific presentations will focus on many timely and current issues including vaccinations, intimate partner violence, pelvic floor pain, the new crisis – vaping, and the impact of leadership on public health. We have invited Dr. Jerome Adams, the US Surgeon General to give the keynote speech.

We will again be offering three hours of CME on opiate abuse and substance abuse issues, satisfying the requirements established by the NH Board of Medicine. Finally, we will offer an opportunity for an early morning fun run/walk and fun family activities for families while physicians are soaking up the education. The food and the views at the Mt. Washington are spectacular.

Please consider joining us for this weekend of education and fun in the magnificent setting of the Mt. Washington Hotel in Bretton Woods, NH.

Tessa Lafortune-Greenberg, MD
President, New Hampshire Medical Society
Friday, November 15
8:30 – MAT Training see NHMS.org for flyer
